REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance claim 1 is that the prior art of record does not teach the higher-order control unit for generating a single master shaft angular position set point of a virtual master shaft for each one of separate drive motors and a second signal line adapted to carry the separate individual offset value to each one of the regulation units for each one of the separate drive motors as argued by applicant (Remarks, page 14, first paragraph).

The primary reason for allowance claim 128 is that the prior art of record does not teach the step of using a higher-order control unit for generating a single master shaft angular position set point of a virtual master shaft for each one of separate drive motors via a first signal line and using a second signal line for transmitting the offset value for each one of the separate drive motors to the drive regulation unit for each one of the separate drive motors as argued by applicant (Remarks, page 14, second paragraph).

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Nguyen whose telephone number is (571) 272-2169. The examiner can normally be reached daily from 9 AM to 5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Nguyen, can be reached on (571) 272-2258.
